Fem'Energia 2019 Award Ceremony

"We are proud to support you along your career path in the nuclear industry"

Etienne Dutheil
Executive Director of the Nuclear Production Division
Fem'Energia 2019 Award Ceremony

Women in the nuclear industry

WiN (Women in Nuclear) is a network of women working in nuclear field (energy, aerospace, medicine, biology, art...).

WiN France belong to the WiN Global represented in more than 100 countries.

The main goals of WiN France:

- **Promote** the scientific and technical careers and to facilitate the access to the first job for the young people.
- **Contribute** to the development of the diversity and gender balance in the jobs in the nuclear industry by preparing the talents of tomorrow.
- **Communicate** on the assets of nuclear energy.
- **Exchange** experience and to share good practises.
- **Offer** its competences and its collective expertise to the actors of the sector, in particular, in the fields of the education and the transmission of knowledge.
